

HIGH PRESSURE POWER PACK 700bar

KOLUBRA is a compact hydraulic power pack with petrol engine designed to give pressures up to 700 Bar, for its small dimension is easy to lift and transport.

The distribution valve assures the perfect control and regulation of the pressure that is visualised by the pressure gauge.

The machine components are of the best quality to give maximum durability and performances.

Robust and manoeuvrable KOLUBRA is ideal in all high pressure applications, with rescue tools, in the railroad maintenance, with concrete crackers, with hydraulic rock splitters etc.

AVAILABLE WITH 230 V ELECTRIC MOTOR

**AVAILABLE WITH HYDRAULIC MOTOR
OIL/OIL INTENSIFIER**

ADVANTAGES

- ROBUST FRAME IN STAINLESS STEEL TUBE WITH RUBBER FEET
- THE HYDRAULIC DISTRIBUTOR WITH 3 WAY VALVE OPEN CENTER GIVES EXCELLENT CONTROL IN ALL SITUATIONS
- THE RATIONAL ASSEMBLY OF COMPONENTS ASSURES COMPACTNESS AND AVOID POTENTIAL OIL LEAKS

ACCESSORIES

- HYDRAULIC OIL HOSES LENGTH m 5 WITH QUICK COUPLERS

WEIGHT AND DIMENSIONS

WEIGHT with liquids

38 kg

DIMENSION cm L x W x H

50 x 39 x 40

ENGINE CHARACTERISTICS

ENGINE TYPE

4,5 Hp PETROL

STARTING

RECOIL

ENGINE ACCELLERATION

MANUAL

HYDRAULIC CHARACTERISTICS

FLOW max

3 l/min

PRESSURE max

700 BAR

OIL TANK CAPACITY

6 liters

INCRESABLE ON REQUEST
